

25th Annual International Seminar on Forest Administration & Management

A unique seminar program for natural resource professionals from around the world.

October 6-15, 2009

Seminar Fee: \$4900 USD

Application Deadline: July 15, 2009

For an application or more information contact:
ISFAM@nau.edu

Offered by Northern Arizona University,
School of Forestry

This seminar focuses on strategies and methods to develop, manage, and conserve natural resources for the sustained delivery of goods and services. These discussions revolve around six dynamic themes including: maintaining the forest resource base; forest health; socioeconomic benefits of forests; and legal policy, trade, institutional framework and cooperation.
