

Your Gift Membership Could Make a World of Difference

More than ever, international foresters need the information, latest technical data, and news that ISTF provides to its members. However, many of your colleagues do not have the financial means to join ISTF. Access to ISTF member services will place them at a great advantage.

We hope you will sponsor at least one member this year with a gift membership donation and show your support for foresters on the front lines of tropical forestry. For only US\$10 (US\$25 for sponsorships in a developed country) you can share the advantages ISTF has to offer. Today foresters face some of the most difficult issues in natural resource management. A year's subscription to the *ISTF NEWS* will help these foresters keep current and be more effective.

You may designate the recipient of your gift. If not, please let us distribute your gift to those who need it most. Your caring will make a world of difference.
